# INTRODUCTION

The **V92 Digi Tapemaster** is one of the most compact, high energy erasers available to users who require a highly efficient, non-continuous, low volume degausser. Capable of erasing all high energy magnetic media (Oxide or metal based) The **V92 Digi Tapemaster** is suitable for almost all applications for magnetic media users.

The **V92 Digi Tapemaster** is a low noise, manually operated unit, which sits neatly on a table top. No compromise has been made when it comes to performance. With erasure levels below  $-90\text{dB}$  on standard oxide tapes, complete erasure is assured every time. The erasure is also extremely quick - taking as little as **10 seconds** to erase each cassette.

The **V92 Digi Tapemaster** provides a truly universal, desktop magnetic media degaussing facility that meets the needs of a diverse range of user groups, using a wide range of audio, video and computer tapes or cassettes.
