

VS350

Universal labeler

Labels over 4000* units per hour
*dependent on unit size and shape

Suitable for labeling jewel cases,
DVD cases, audio cassettes,
VHS cassettes and CD sleeves

Applies security tabs around
jewel cases and CD sleeves

Table-top unit

Easy to set up and operate

The universal VS350 will apply labels to a wide variety of products at up to 4000 pieces per hour! The VS350 can label VHS cassettes, CD envelopes, CD jewel cases, audio cassettes, in fact any product with a flat surface to maximum height of 2" (50mm) and width of 8.3" (210mm).

Labels can be in either fan fold or reel format. The VS350 can be used as a standalone unit or incorporated in a production conveyor line. Multiple units can be placed in line to form a complete tabbing, labeling and bar coding system.

The VS350 can apply product, promotional or bar code labels to any size of package up to 2" (50mm) high, 8.3" (210mm) wide, and any length. The versatile VS350 can use paper or plastic labels or tabs with clear or solid backgrounds.

The VS350's optional hopper can dispense paper, plastic and tyvek CD sleeves plus CD jewel cases. The hopper holds 220 typical paper sleeves or 34 jewel cases and can be refilled while the unit is running. The hopper also acts as an automatic flap folder, folding down the flaps of paper and Tyvek CD sleeves and other envelopes as they pass from the hopper onto the LAB500's conveyor belt.

Sleeve and Jewel Case Tabber: The tabber option allows the VS350 to apply and fold sealing tabs/labels round the edge of CD jewel cases and open ends of cardboard sleeves. The tabs/labels can be paper or plastic, clear or solid.
