

Meteor^{CF}

Duplicate to **Compact Flash** memory cards simultaneously

Supports synchronous and asynchronous copy modes

High-speed copy – up to 10MB/sec

Available with 7 or 14 target drives

Standalone – no PC required

Simple operation

The Meteor^{CF} PowerTower professional duplicator offers fast, efficient and convenient copies of your Compact Flash memory cards at a cost effective price and without the need for a computer. Available with 7 or 14 target drives, the Meteor^{CF} supports all common compact flash card formats, file size and card/drive capacities.

Advanced asynchronous duplication means no waiting and no interruption as each channel can independently load, unload, and copy.

The new Meteor^{CF} Duplicator is simple to use and features a user friendly 4-key control with LCD, high speed duplication and bit-by-bit Compare function to confirm successful copies.

Meteor^{CF}

Function:

Compact Flash Card Duplication System

Supported Source Formats:

Compact Flash (CF)

Media Handling:

Compact Flash Type 1, 2, Microdrives

Targets:

7 or 14 targets
