

VS4000 SERIES

Overwrappers for CD jewel cases, slim-line jewel cases, DVD, BD and Nintendo DS cases

Professional wrap quality

Low cost investment

Better finish than shrink wrapping

Wrap up to 300 cases per hour

Semi automatic operation

Table-top unit

Operators wishing to wrap small to medium quantities of CD, DVD, BD and Nintendo DS cases can now achieve a quality finish equal to the standard of more expensive finishing machines, with the VS4000 series of overwrappers from Verity Systems.

Available for standard jewel cases (VS4000), slim line jewel cases (VS4000sl), DVD, "Amaray" type cases (VS4000-DVD), Blu-ray cases (VS4000-Blu-ray) and Nintendo DS (VS4000-DS) these tabletop units are dedicated to small or medium scale production of discs and are a cost effective solution providing professionally finished packaging for short run work, at a tenth of the cost of industrial equipment.

The semi-automatic operation is simple and effective. A pre-cut sheet of polypropylene wrapping material is placed on the manual platform. The case is simply placed on the pre-cut sheet and the operator closes the cover, which tensions the wrapping and makes the first heat-seal. The case is then placed into the hopper for the second fold and seal operation, which is fully automatic.

The sealing temperature is electronically controlled and can be set to the desired value. An electronic security system stops the machine operating in the case of incorrect usage.

Polypropylene wrapping material can be supplied in boxes of 10,000 sheets from Verity Systems.

The result is a professionally folded and sealed CD, DVD, BD or Nintendo DS case suitable for even the best retail presentations and all this for a fraction of the cost of outsourcing.

VS4000 SERIES

	VS4000-CD	VS4000-SL	VS4000-DVD	VS4000-BD	VS4000-DS
Media Handling:	Standard CD Jewel Cases	Slim CD Jewel Cases	DVD Amaray Cases	Blu-ray Cases	Nintendo DS Cases
Throughput:	Up to 300 per hour	Up to 250 per hour	Up to 200 per hour	Up to 200 per hour	Up to 300 per hour

Wrapping Dimensions:	6.3" x 10.8" 160mm x 275mm	6" x 10.5" 151mm x 267mm	8.26" x 11.88" 210mm x 302mm	7.36" x 11.61" 187mm x 295mm	12.5" x 6.3" 318mm x 160mm
Sheet Thickness:	.00013" (32 microns)	.00013" (32 microns)	.00013" (32 microns)	.00013" (32 microns)	.00013" (32 microns)

The VS4000 series give a wrapping finish equal to that of CDs and DVDs found in any retail outlet.

Whilst shrink wrapping leaves cases with rough, unsightly seams, the VS4000 series of wrappers provides a neatly folded and sealed package.

Warranty

12 months back to base, all parts and labour included. Extended warranties also available.
